

FlexiShield

Streamline Livestock Movement with The Ultimate Visibility-Control Barrier

Introducing FlexiShield, the durable and versatile plastic barrier designed for efficient livestock management. Ideal for all livestock, it enhances animal flow, reduces visibility to minimize distractions, and withstands the rigors of daily use with exceptional resilience.

Applications

Cattle yards, horse walkers, calf pens, and general animal handling facilities.

Properties

Made from thick durable plastic. Hygienic and easy to clean.

Specifications
