

# DoubleStud - Dairy

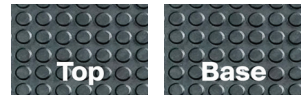

23mm thick, multi-use mat with rubber studs on both surface and underside.

DoubleStud is a 23mm thick, multi-use rubber matting with studs on both the surface and underside designed to provide anti-slip support for hooves. Its prominent profile ensures excellent grip, providing surety for your animals. Excellent in a range of applications including wash bay areas, entry/exit, herringbone platforms, yards, deer sheds, feed pads, and underpasses.

## Applications

Yards, Entry/Exit, Herringbone Milking Platforms, Underpass, Feed Pads, Deer Sheds, Wash Bays

## Properties

Made from high MPA rubber from new and recycled product using a unique vulcanisation process. Fully sealed and won't hold moisture or bacteria.
