

240V Duo Scratch Brush

**Versatile mounting options.
Ideal for head, neck, back, torso, and
flank. Can be used by all farm animals.
Redirects destructive scratching**

Introducing the **240V Duo Electric Cow Scratch Brush**, a revolutionary solution for comprehensive brushing, cleaning, and massaging of your livestock. This electric brush is specifically designed to target the head, neck, back, torso, and flank, enhancing blood supply to the skin and stimulating metabolism. Suitable for yearlings and older cows, this brush ensures optimal livestock well-being.

The dual-brush configuration provides simultaneous cleaning of the flanks and back, while the automatic activation sensor responds as animals raise the brush for hassle-free operation.

Built for longevity, the high-quality bristles guarantee an extended service life, and the intelligent, low-maintenance design ensures smooth operation. The 3-digit digital display allows for variable setting adjustments, ensuring even wear of the brushes, and features torque safety shutdown to halt the brush in case of excessive resistance.

Allow one unit for every 60 cows.

Specifications

- Voltage: 240V (50Hz) 1ph
- Power: 370W
- Speed: 60rpm
- Weight: 150kg
- Horizontal Brush Length: 550mm (Ø 285-420mm)
- Vertical Brush Length: 650mm (Ø 275-315mm)
- Bristle Material: Polyamide
- Protection Class: I
- Ingress Protection Rating: IP56 - Limited ingress of dust and strong jets of water permitted. Recommended to cover or protect the digital display enclosure for prolonged lifespan.
- Material: Polyamide bristles

Features

- Dual-brush design for comprehensive grooming
- Automatic sensor activation for ease of use
- Variable settings for brush running time (10 seconds to 5 mins)
- Durable, hot-dip galvanized steel construction
- High-quality bristles for extended service life
- Torque safety shutdown for protection during operation
- Energy-saving auto switch-off after 10 seconds of inactivity
- Suitable for indoor and outdoor use
- Provides injury-free itching relief
